#### ADDITIONAL LIMITATIONS

- △ Limited to 10-minute songs
- △ 80MB file size maximum
- △ Up to 7 songs per week
- △ Requires well-mixed song for optimal result

## **Frequently Asked Questions**

### **What is Songmastr?**

Songmastr is an AI-based automatic song mastering service that enables users to master their songs fitting to a commercial reference track. It is a user-friendly platform that requires users to simply upload a song from their computer, initiate the processing, and subsequently download the song once it's mastered.

---

### **How does Songmastr use AI in song mastering?**

Songmastr leverages AI in song mastering by using an algorithm derived from the Matchering open-source library. This AI algorithm matches the RMS, frequency response, peak amplitude, and stereo width of the user's song to the chosen reference track.

---

### **What is the maximum song length Songmastr accepts?**

Songmastr accepts songs up to a maximum length of 10 minutes. This limitation is set in place to prevent server saturation.

---

### **Is Songmastr a free service?**

Yes, Songmastr offers free services. This platform offers free mastering for up to seven songs each week.

---

### **What is the weekly limit for free song mastering on Songmastr?**

The weekly limit for free song mastering on Songmastr is seven songs. To process more songs, users have to opt for paid plans.

---

### **What are the requirements for the song to be uploaded on Songmastr?**

The song to be uploaded on Songmastr should be properly mixed and should leave volume headroom (typically -6db). It should not be subjected to a limiter as limiting will be conducted during mastering. The song files should not exceed 10 minutes and 80MB.

---

### **What is the significance of a reference track in Songmastr?**

In Songmastr, a reference track is of great significance as it sets the standard that the user's song will be mastered to. The AI system matches the mastering parameters of the user's song to the reference track.

---

### **How to choose a good reference track for Songmastr?**

In Songmastr, a good reference track should be in the same genre and vibe as the user's song. For beats or instrumental tracks, a reference without a singer is preferable. If a user uploads their own reference track, it should be of good quality and at a normal commercial volume.

---

### **What open source library is Songmastr based on?**

Songmastr is based on the open-source library called Matchering.

---

### **What are the key mastering parameters that Songmastr matches?**

Songmastr matches key mastering parameters like RMS, frequency response, peak amplitude, and stereo width of the user's song to the chosen reference track.

---

### **What type of file formats does Songmastr support?**

Songmastr supports WAV and MP3 file formats.

---

### **Does Songmastr require any special software or user registration?**

No, Songmastr does not require any special software or user registration. The system is designed to be user-friendly and accessible.

---

### **Is there any specific way to pre-process the song before mastering on Songmastr?**

Before mastering on Songmastr, songs should be properly mixed with some volume headroom (typically -6db). It is advised to apply some compression, but not a limiter, as limiting will be done during mastering.

---

### **Does Songmastr retain the uploaded song files?**

No, Songmastr does not retain the uploaded song files. According to their policy, files are deleted at most after 24 hours.

---

### **Can instrumental tracks be mastered with Songmastr?**

Yes, instrumental tracks can be mastered using Songmastr. If the track is a beat or instrumental, it's advised to choose a reference without a singer.

---

### **What advice does Songmastr give on audio compression before mastering?**

Songmastr advises users that they can apply some compression before uploading the song for mastering, but they should avoid applying a limiter as limiting is performed during the mastering process.

---

### **Does Songmastr have any examples of mastered tracks?**

Yes, Songmastr provides examples of audio mastering in the examples section on their website.

---

### **What is the download process for the mastered track on Songmastr?**

The download process on Songmastr begins once the processing is finished. Users can download the file by clicking on the download button.

---

### **Does Songmastr have any paid plans?**

Yes, Songmastr offers paid plans for users who wish to process more than the free limit of seven songs per week. The cost of these plans is not expressly mentioned.
