Frequently Asked Questions

What is Handywriter?

Handywriter is an AI-powered writing assistant designed exclusively to help WordPress users streamline content creation. It provides various features such as grammar and spell check, plagiarism detection, content templates, automated image generation, and a text-to-speech function. It allows for unlimited users with specific controls, and compatibility with native WordPress block editor and classic editor.

How does Handywriter integrate with the WordPress editors?

Handywriter is engineered to integrate with both the native WordPress block editor and classic editor. The integration enables users to compose content directly within these familiar editing environments, thereby eliminating the need for any additional software or platform.

Can Handywriter check and fix grammar and spelling mistakes?

Yes, Handywriter includes a built-in feature for grammar and spelling checks. It is capable of identifying potential errors within the content and correcting them automatically, which helps in ensuring text clarity and improving overall readability.

Does Handywriter have a plagiarism check feature?

Yes, Handywriter includes a plagiarism check feature. Both user-generated content and AI-generated content can be evaluated for originality to avoid copyright infringement and maintain content integrity.

What are Handywriter's content templates?

Handywriter's content templates are pre-designed layouts aimed at facilitating the creation of specific types of content such as blog posts or video descriptions. These templates act as the starting point for content creation, offering users a structured format to build upon as per their requirements.

Can Handywriter generate images to accompany my posts?

Yes, Handywriter can generate visually appealing, contextually relevant images on-demand to enhance the user's blog posts or content. This feature enhances the visual appeal of the content and provides more depth to the storytelling.

Does Handywriter have a text-to-speech feature?

Yes, Handywriter does have a text-to-speech feature. It transforms written content into high-quality speech, enhancing website accessibility and making the content more engaging for the audience.

In how many languages is Handywriter operational?

Handywriter is operational in more than 100 languages. However, the quality of results may vary for languages other than English due to the training set limitations.

Can Handywriter be used by unlimited users?

Yes, Handywriter can be used by an unlimited number of users. It does not charge extra for more users and allows for user-specific controls to manage access.

Is Handywriter a subscription-based service?

Yes, Handywriter is a subscription-based service. It offers different plans with varying features, credits, and prices, providing options ideal for different user needs and budget ranges.

What are the key features of Handywriter?

The key features of Handywriter include native WordPress integration, automated image generation, a text-to-speech function, unlimited user access, content templates, a plagiarism check, grammar and spelling checks, and user-specific controls. Moreover, it operates in over 100 languages and offers a subscription-based model.

Is there a variation in the result quality for languages other than English with Handywriter?

Yes, Handywriter admits that there may be a variation in the quality of results for languages other than English. This is due to the limitations of the training set used to develop the AI.

Does Handywriter offers user-specific controls?

Yes, Handywriter offers user-specific controls. This means that you can control which user roles can access the Handywriter and its functionalities within your WordPress site.

What are Handywriter credits?

Handywriter credits are tokens that allow users to generate content and utilize various features within the platform. Each credit enables the creation of approximately three words of content. Users can monitor their credit usage effortlessly from the settings page.

What happens when I exhaust my Handywriter credits?

If you exhaust your Handywriter credits, the tool stops functioning until the next billing period begins. Alternatively, you can choose to upgrade your account to increase your credit limit.

Can I get a refund if I'm not satisfied with Handywriter?

Yes, if you're not entirely satisfied with Handywriter, you are entitled to a full refund within 14 days of your original purchase.

How does Handywriter ensure content originality?

Handywriter ensures content originality with its built-in plagiarism checker feature. It checks both AI and user-generated content for plagiarism before publishing to help maintain content integrity and avoid possible copyright issues.

How to use the Image Generator feature in Handywriter?

To use the Image Generator feature in Handywriter, you simply need to request generation of an image when creating your content. The AI will automatically produce a visually appealing, context-specific image to accompany your post.

Does Handywriter provide regular updates for the plugin?

Yes, Handywriter does provide regular updates for the plugin. These updates are accessible regardless of your license key status as the plugin is hosted on the official WordPress repository.

How does the Text-to-Speech feature in Handywriter work?

The Text-to-Speech (TTS) feature in Handywriter works by converting the written content into high-quality speech. This makes the website content more accessible and engaging to visitors as they have the option to listen to the content rather than only read it.
