#### ADDITIONAL LIMITATIONS

- △ Limited sharing options
- △ Dependent on internet connection
- △ Limited customization options
- △ Features may overwhelm beginners

## **Frequently Asked Questions**

### **What is Beautiful.ai?**

Beautiful.ai is an online presentation maker that simplifies the creation of impactful presentations. It offers smart slides with AI-assisted designs, a plethora of customizable templates, a vast library of free stock photos and videos, and multiple animation options. The platform also provides advanced analytics, secure sharing and collaboration tools, and voice narration to support the creation of compelling presentations.

---

### **How does Beautiful.ai use AI in designing presentations?**

Beautiful.ai uses AI to assist in designing presentations with a feature called DesignerBot. When given a brief or description of the desired presentation, DesignerBot can generate a first draft. It also helps users by automatically adapting slide layouts and designs based on the specific content added. Thus, ensuring an aesthetic and balanced presentation.

---

### **What is DesignerBot and how can it assist in creating presentations?**

DesignerBot is an AI-powered tool in Beautiful.ai that aids in the creation of presentations. Once given a brief or the type of presentation you want to create, DesignerBot generates a first draft, significantly reducing the starting process. Additionally, it can convert ideas into creative visual forms by generating unique images based on the users' input.

---

### **What customization options does Beautiful.ai provide for presentations?**

Beautiful.ai offers numerous customization options for presentations. Users can choose from an extensive range of smart slide templates and personalize them according to their needs. The platform also provides custom style themes where users can incorporate their brand's colors, fonts, logos, and more. Furthermore, you can access millions of free stock photos, videos, and icons to add visual depth to your presentation.

---

### **What kind of slide templates can I find on Beautiful.ai?**

Beautiful.ai provides over 60 customizable Smart Slide templates that automatically adapt to your content. Whether you are pitching a new idea, presenting a business plan, or creating a marketing report, there are specific templates for various applications. These pre-designed templates allow users to quickly start, finish, and make a strong impression with their presentations.

---

### **What is the Team Plan on Beautiful.ai and what extra features does it offer?**

Beautiful.ai's Team Plan is designed to enhance collaboration within teams while creating presentations. The plan includes shared team slides and themes, allowing a consistent and on-brand presentation creation. It also offers a centralized content library and team folders for easy access to necessary materials. Other features include Single Sign-on (SSO) login and centralized billing to streamline the management process.

---

### **What are the specific applications of Beautiful.ai for marketing, sales, and startups?**

For marketing, Beautiful.ai can assist in creating visually arresting marketing reports and campaigns. Sales teams can create on-brand sales proposals quickly, thanks to the smart templates. Startups stand to benefit significantly as well, with Beautiful.ai providing the means to create engaging pitch decks that can clearly convey their business ideas.

---

### **Does Beautiful.ai offer any plans suitable for students or educational purposes?**

Yes, Beautiful.ai provides free plans that students and educators can utilize. Although the specific features and functionalities included in this plan are not explicitly stated, the provision shows Beautiful.ai's commitment to educational purposes and academic communities.

---

### **What integrations does Beautiful.ai support?**

Beautiful.ai supports a variety of integrations aimed at boosting productivity and streamlining your workflow. It offers seamless integration with popular platforms like Slack, Dropbox, PowerPoint, and monday.com, making it easy to incorporate and create presentations within these platforms.

---

### **Does Beautiful.ai offer any analytics for the presentations?**

Yes, Beautiful.ai incorporates advanced analytics into its platform. This feature provides in-depth insights into which slides were most effective, useful for evaluating presentation success and optimizing future content.

---

### **What type of media can I use in my Beautiful.ai presentations?**

Beautiful.ai permits the use of a myriad of media in presentations. This ranges from millions of free stock photos and videos from partners like Unsplash, Pexels, and Pixabay, to icons and other visual elements. This vast media library is designed to help make presentations more engaging and visually compelling.

---

### **Can I narrate my slides on Beautiful.ai?**

Yes, you can add voice narration over slides using Beautiful.ai. This feature is particularly useful when presentations are to be shown without a live narrator, or to engage audiences remotely. There is also provision to upload audio tracks for slides that need to be heard.

---

### **How does sharing and collaboration work on Beautiful.ai?**

Beautiful.ai offers secure sharing and collaboration features. You can collaborate in real-time, leave comments, make edits, and share feedback on the platform. Sharing your presentation is easy as well, either through a link, by email, or by embedding it on a website.

---

### **Can I use my own brand's themes and templates on Beautiful.ai?**

Yes, Beautiful.ai allows you to apply and maintain your own brand identity in your presentations. You can add your company's colors, fonts, and logos, ensuring that every presentation is consistent with your branding. The customization extends to your presentation theme, making them truly bespoke.

---

### **Can I create animations in Beautiful.ai presentations?**

Yes, you can create animations in your Beautiful.ai presentations. It offers built-in smooth animations, with controls to adjust the timing and sequence of elements on each slide. These automatic animations can really bring your presentations and story to life.

---

### **How can I search for specific slide templates or layouts on Beautiful.ai?**

Beautiful.ai offers a searchable slide library. You can search for specific slide templates, layouts, or even content you've created in past presentations. This feature allows you to find the perfect design to visualize your ideas quickly and easily.

---

### **Is it possible to present offline using Beautiful.ai?**

Yes, with Beautiful.ai, you can present offline. It offers a desktop player, which can be downloaded from the app, and used to showcase downloaded presentations offline.

---

### **Can I export Beautiful.ai presentations to PowerPoint?**

Yes, apart from presenting live from the browser, you have the option to export your presentations to PowerPoint. This offers you the flexibility to use the presentations outside the Beautiful.ai platform when necessary.

---

### **How does Beautiful.ai's pricing work?**

Beautiful.ai 's pricing is structured around three plan levels: Basic, Pro, and Team. The Basic Plan allows for the creation of unlimited presentations for free, while the Pro and Team plans offer more features such as custom branding, analytics, and more at respective pricing tiers.

---

### **Do I need to have design skills to use Beautiful.ai?**

Beautiful.ai is designed to be user-friendly and accessible to everyone, regardless of design skills. Thanks to its AI-assisted design, intuitive controls, and smart slide templates, it makes creating professional and aesthetic presentations possible even without advanced design skills.
