## **Frequently Asked Questions**

### **What is Eternity Ac?**

Eternity Ac is an artificial intelligence (AI) powered platform that allows users to create digital clones of themselves who can interact and represent the user's likeness, thoughts, and personality.

---

### **How does Eternity Ac create a digital clone?**

Eternity Ac creates a digital clone in three steps. First, the user uploads their thoughts and speaks into the system to record key traits, personality nuances, and typical dialogue tendencies. Second, the user provides several selfies that are used to build a visual representation in the form of a 3D avatar. Lastly, the user can download or store the digital clone in the cloud.

---

### **What does it mean to upload my thoughts to Eternity Ac?**

When you upload your thoughts to Eternity Ac, you are interacting with the system verbally to provide it with a sample of your personality traits, communication style, and typical dialogues. The AI uses this information to make your digital clone represent your personality as closely as possible.

---

### **What kind of data does Eternity Ac collect in the first step of the cloning process?**

In the first step of clone creation, Eternity Ac collects input from the user as they speak to the system. This data is used to distill key traits of the user, their personality nuances, and their typical dialogue tendencies.

---

### **Why does Eternity Ac ask for selfies?**

Eternity Ac asks for selfies to create a 3D avatar representing the user visually. These selfies provide the raw material that the AI uses to construct a digital image that reflects the user's facial characteristics and expressions.

---

### **How does Eternity Ac use my selfies to create a 3D avatar?**

Eternity Ac uses your selfies to generate a 3D avatar. The AI software processes the photos to capture key facial characteristics and expressions and incorporates these visuals into your digital clone, creating a realistic visual representation.

---
