Frequently Asked Questions

What is f13o?

f13o is an AI-powered user engagement and subscriber growth tool for websites and eCommerce platforms. The tool is named 'Chat with Page' and it interacts with the site's content, responds to user inquiries, and offers detailed information on topics that users show interest in. It uses publicly available information and does not store or share any private data.

How does 'Chat with Page' increase user engagement?

'Chat with Page' increases user engagement by interacting with site content and responding to user inquiries. It provides detailed information on the topics users show interest in, extending the time users spend onsite. This interactive approach allows users to have a more personal and immersive experience, significantly boosting their engagement with the site.

How can I integrate 'Chat with Page' on my website?

Integrating 'Chat with Page' on your website is done through a simple script installation process. After signing up for an account and selecting a suitable plan, you will be provided with a script to embed on your website. This installation process is streamlined and designed to be easy, even for those lacking in technical skills.

What information does f13o process?

f13o processes only publicly available information from the website it is integrated with. This includes the content of your site which it uses to interact with users and answer their queries, offering detailed information on the topics they show interest in.

Does f13o store or share private data?

No, f13o doesn't store or share private data. 'Chat with Page' functions by processing only publicly available information from the website it is integrated with, ensuring that no private data is stored or shared.

How does 'Chat with Page' contribute to search engine rankings?

'Chat with Page' contributes to search engine rankings by providing fast and accurate responses to user queries. As search engines consider it a positive signal when users find answers to their inquiries on a website, having a tool like 'Chat with Page' that is capable of providing detailed answers to a multitude of topics can positively influence your site's SEO.

How can I customize the chat box of f13o?

You can easily customize the chat box of f13o to match your site's niche after embedding the 'Chat with Page' script on your website. This allows your audience to have a seamless and niche-specific chat interaction, which can contribute positively to your site's user experience.

What are the key benefits of using f13o?

The key benefits of using f13o include enhancement of user engagement, growth in subscriber base for your website or eCommerce platform, fast and accurate responses to user inquiries, increased time spent on the site, potential increase in revenue, and a robust lead capturing feature. These functions can all contribute positively to your site's SEO ranking.

How fast can I expect responses from 'Chat with Page'?

The 'Chat with Page' AI assistant from f13o provides an instant response to user queries. It interacts in real-time and answers user inquiries with detailed information on the topics they show interest in. This capability allows for quick and accurate support, helping retain user interest and extending their stay on the site.

How does the lead capturing feature of 'Chat with Page' work?

The lead capturing feature of 'Chat with Page' works by presenting an option to users to share their email addresses to receive more information on the topics they are interested in. This way, it helps in growing your subscriber list and can increase the potential for future conversions.

How do I start using f13o?

To start using f13o, you will need to sign-up for an account, select a plan that suits your needs, and then embed the 'Chat with Page' script on your website. Once the script has been embedded, you can customize the chat box to match your site's niche and start engaging with visitors.

How does 'Chat with Page' enhance my subscriber growth?

'Chat with Page' enhances subscriber growth by providing engaging communication and comprehensive responses to user inquiries. As users interact and receive satisfactory replies, they spend more time on the site which leads to increased conversion opportunities and growth in subscriber count.

What are the pricing plans offered by f13o?

f13o offers two pricing plans. The 'Starter' plan is priced at \$19 per month and includes features like user engagement enhancement, lead capturing, and a total of 10k pageviews. The 'Professional' plan costs \$49 per month, supporting 100k pageviews, and includes additional features like image recognition.

Does f13o offer any discounts for first-time customers?

Yes, f13o offers a 25% discount for the first 260 customers. At the time of data collection, it was mentioned that 16 slots were still available.

How does 'Chat with Page' contribute to increased revenue?

'Chat with Page' contributes to increased revenue by extending the time users spend on your site. This leads to more ad impressions and increased product visibility, which collectively can lead to higher revenue. It also captures leads by collecting users' email addresses, paving the way for future marketing and conversion opportunities.

Is there a limit on pageviews per month with the starter and professional plans?

Yes, there is a pageview limit for both plans. The 'Starter' plan supports up to 10k pageviews per month, while the 'Professional' plan supports up to 100k pageviews per month.

What additional features are offered in a professional plan?

The 'Professional' plan of f13o includes features like image recognition in addition to all the features offered by the 'Starter' plan. These features, along with a higher limit of 100k pageviews per month, offer a more comprehensive solution for websites with high traffic.

How can f13o help with answering user queries?

'Chat with Page' from f13o helps in answering user queries by utilizing the AI's capability to interact with your site's content in real time. It can respond to inquiries, providing detailed information on topics users show interest in, thereby enhancing the user experience and contributing to your website's positive search engine rankings.

Can 'Chat with Page' function with my eCommerce platform?

Yes, 'Chat with Page' can be used with your eCommerce platform. It's designed to enhance user engagement and grow the subscriber base for both websites and eCommerce platforms. By interacting with the content and responding to user inquiries, it can increase shopping time and potentially boost revenue for your eCommerce platform.

How can I contact customer support?]

If you need to contact customer support, you can reach out via the contact form available on their website or write an email to the address provided under their 'Contact Us' section.
