ai agent

### What It Does

Replit AI integrates AI assistance directly into Replit's cloud IDE, allowing users to build, run, and deploy applications from prompts. The AI Agent can take a description and autonomously build a working app. It supports 50+ languages and provides a complete development environment in the browser — no local setup needed.

CONTENT QUALITY

82/100

USEFULNESS SCORE

84/100

## Pros

### + What Works Well

- + Browser-based development + AI
- + 50+ language support
- + Instant deployment
- + AI Agent for autonomous building
- + Free tier available

## Cons

### - Limitations to Consider

- Not as powerful as local IDEs
- Performance limits on free tier
