What It Does

n8n is an open-source workflow automation platform (similar to Zapier but self-hostable) that has added native AI agent capabilities. It supports 400+ app integrations, can run AI workflows that call LLMs, process data, and connect APIs, and is particularly popular for building AI-powered automation pipelines. Free to self-host.

CONTENT QUALITY

83/100

USEFULNESS SCORE

85/100

Pros

+ What Works Well

- + Open-source and self-hostable
- + 400+ integrations
- + Native AI agent capabilities
- + Visual workflow builder
- + Free forever for self-hosting

Cons

- Limitations to Consider

- Technical setup for self-hosting
- Complex workflows can be challenging
