### What It Does

Suno is the leading AI music generation platform that can create complete, radio-quality songs from text descriptions. Users describe the genre, mood, and theme, and Suno generates original music with vocals, melody, harmony, and production — in seconds. V4 supports longer tracks, better voice quality, and stems export. Used by millions for content creation, jingles, and musical exploration.

CONTENT QUALITY

88/100

USEFULNESS SCORE

90/100

## Pros

### + What Works Well

- + Full songs with vocals from text prompts
- + Radio-quality audio output
- + Multiple genre support
- + Fast generation
- + Free tier available

## Cons

### - Limitations to Consider

- Generated songs may lack depth
- Licensing unclear for commercial use
- Less control over specific elements
