- Collaboration features can be improved
- Limited stock footage diversity

#### ADDITIONAL LIMITATIONS

- ⚠ Limited customization options
- ⚠ Doesn't support 3D videos
- ⚠ Lack of advanced video editing features
- ⚠ Only supports text-based input

## Frequently Asked Questions

### What is Pictory?

Pictory is an AI-based application that facilitates the creation and editing of professional-quality videos. It allows users to turn text into videos, summarize long videos, extract highlights from recordings and incorporates features such as auto captioning and auto transcription.

### How does Pictory use AI?

Pictory deploys AI in several innovative ways. It uses AI to convert scripts and blogs to videos, complete with stock footage, AI voices, and music. It also uses AI to summarize long videos and to automatically extract significant highlights from webinar and podcast recordings. Its AI capabilities further extend to the generation of automatic captions to extend reach and increase watch time.

### Who can make use of Pictory?

Pictory is designed for a wide range of users. Marketers, social media managers, agencies, bloggers, course creators, coaches, and Vidnami users can take advantage of Pictory's features. It also serves various professionals like business professionals, educational professionals, and content creators. In essence, anyone requiring a dynamic and efficient tool for video creation and editing will find Pictory a useful platform.

### Is Pictory designed for beginners or experienced video creators?

Pictory is designed to cater to both beginners and experienced video creators. The simple, user-friendly interface eliminates the need for technical skills or software downloads. Meanwhile, it also offers a host of powerful features that experienced video creators can take advantage of, saving them hours of production time compared to traditional video creation tools.

### Can I create videos using text with Pictory?

Yes, with Pictory, users can create professional-quality videos using text. The text can come from multiple sources - scripts, articles, blog posts, or any form of long content. The platform uses AI to convert this text into videos, making the process fast and efficient.

### How efficient is Pictory's text-to-video conversion?

Pictory's text-to-video conversion feature leverages AI to provide swift and high-quality renderings. Along with transforming text to engaging videos, the platform can also supplement the video with realistic AI voices, matching footage, and suitable music. The process takes only a few minutes, enabling users to create videos rapidly compared to more traditional methods.

### How does Pictory summarize long videos?

Pictory offers a video summarization feature that utilizes AI to condense long videos into shorter versions. This feature extracts the most critical parts or 'golden nuggets' of a video and pieces them together into a concise, compelling video. Consequently, users can transform lengthy content such as webinars, Zoom, and Teams recordings into digestible, shareable video snippets ideal for social media.

### What is the 'golden nuggets' extraction feature in Pictory?

'Golden nuggets' refers to the key ideas or most valuable content of a recording. Pictory uses AI to comb through long video content, whether podcasts or webinars, identify these crucial points, and extract them automatically. The extracted content can then be compiled into a high-conversion Video Sales Letter complete with suitable stock footage.

### Which multimedia platforms can Pictory extract content from?

Pictory can extract content from Zoom, Teams, and webinar recordings. This allows users to create branded video snippets for social media purposes by automatically pulling out the highlights or 'golden nuggets' from these long-form contents.

## **Does Pictory offer auto captioning and auto transcription?**

Yes, Pictory offers users the benefit of auto captioning and auto transcription. Using AI, Pictory can automatically transcribe entire videos and auto-caption them. This feature results in an increased video reach and up to a 12% longer view time, especially considering the statistic that 85% of social media videos are viewed on mute.

---

## **Can Pictory be used for social media video content creation?**

Yes, Pictory can be leveraged for creating social media content. The platform is ideal for extracting highlights from long recordings and turning them into short, branded, and shareable video snippets. This feature makes it very useful for content creators on social media platforms, marketers, or businesses looking to promote interactive and engaging content on their social media channels.

---

## **Is Pictory used for professional and personal purposes?**

Both professional and personal users can utilize Pictory. For professional use, educators, marketers, agencies, social media managers, business and educational professionals, content creators, and others can benefit significantly from the platform's offerings. The ease of using the app also makes it a viable option for personal users like bloggers and individuals looking to create high-quality videos without technical complications.

---

## **How fast can I create videos using Pictory?**

The speed at which you can create videos with Pictory is significantly fast due to its AI-powered features. Users can make professional-quality videos from text in just a few minutes, with no need for software downloads or technical skills. This speed and efficiency make it a powerful tool for a wide range of users, from professional marketers to individual content creators.

---

## **Does Pictory provide stock footage for video creation?**

Yes, Pictory provides stock footage for video creation. As part of its text-to-video conversion feature, it can supplement user-provided scripts with suitable stock footage, AI voices, and matching music. Consequently, users can create comprehensive, professional-quality videos without the need to source footage themselves, saving valuable time and effort.

---

## **Are there any partnerships that Pictory is part of?**

Yes, Pictory has established partnerships with several recognized entities. Some of the partner entities listed on their website include Webfx, Walmart, Compass, Byte Dance, Salesforce, Kajabi, CloudPay, Hyatt, Kayak, and many more. These collaborations suggest a broad acceptance of the tool in various industries, further solidifying its credibility and utility.

---

## **Does Pictory have a free trial?**

Yes, Pictory does offer a free trial. Novice users or those wanting to explore Pictory's features can get started for free, as evidenced by the 'Get Started For Free' prompts on their website. Consequently, users can experience firsthand the efficiency of Pictory's AI-powered features before committing to a subscription.

---

## **What is the page title of Pictory?**

The page title of Pictory is 'Pictory - Easy Video Creation For EVERYONE'.

---

## **How user-friendly is Pictory's interface?**

Pictory's interface is designed with efficiency and user-friendliness in mind. Irrespective of the user's technical skills or experience levels, they can quickly navigate the interface and leverage its features. It allows users to swiftly create videos from long form content, extract highlights, convert scripts to videos, transcribe videos, and create social media-ready clips, all culminating in a responsive and user-friendly experience.

---

## **What is the advantage of Pictory over other traditional video editing tools?**

Pictory offers an edge over traditional video editing tools given its combination of AI-powered functionalities, ease of use, and speed. Unlike conventional tools, Pictory does not require technical skills, software downloads, or

considerable production time. It also offers unique features like text-to-video conversion, automated extraction of highlights, video summarization, and auto captioning, making it a more versatile tool for video creation and editing.

---

### **Does Pictory have a community where users can interact and share ideas?**

Yes, Pictory has a dedicated creator community where users can interact, share ideas, learn from each other, and enhance their video creation skills. The creator community is a platform for Pictory users to share their experiences, post queries, provide suggestions, and participate in discussions relating to the tool and video creation in general.
