- Complex customization options
- Depends on quality of training data
- Variable accuracy
- Requires regular updating for relevance
- Pricing for larger operations

#### ADDITIONAL LIMITATIONS

- △ Needs HTML code integration
- △ Trains largely on website data
- △ Limited file upload capacities
- △ Complex customization options

## Frequently Asked Questions

### What is the purpose of Supportbot Pro?

Supportbot Pro's purpose is to offer AI-powered customer support and lead generation. It is designed to handle customer queries and provide relevant responses by training on a company's content such as website information and PDF documents.

### How does Supportbot Pro use AI technologies?

Supportbot Pro uses AI technologies in two main ways. Firstly, it utilizes machine learning algorithms to train on a company's data and understand customer queries. Secondly, it uses advanced natural language processing capabilities to handle a wide range of complex questions.

### How is Supportbot Pro installed on a website?

Supportbot Pro is installed on a website by placing the provided HTML code in the head section of the website's HTML code.

### What kind of data does Supportbot Pro train on?

Supportbot Pro trains on various types of data, including a company's website content, PDF documents, and other relevant information. This data is used to gain a comprehensive understanding of the company's products and services.

### How does Supportbot Pro respond to complex customer questions?

Supportbot Pro responds to complex customer questions through its advanced natural language processing capabilities. It can understand and respond to a wide range of customer inquiries.

### Is Supportbot Pro customizable according to my website's branding?

Yes, Supportbot Pro is customizable according to your website's branding. It can be customized to match the style of your website and it can also be trained on specific datasets to improve its accuracy and relevance.

### How does Supportbot Pro handle customer queries in foreign languages?

Supportbot Pro handles customer queries in foreign languages through its multilingual support capabilities. It uses advanced language processing techniques to understand and respond to customer queries in different languages.

### How does Supportbot Pro ensure data security and privacy?

Supportbot Pro ensures data security and privacy by adhering to industry-standard security practices. It prioritizes protecting customer data.

### What differentiates Supportbot Pro from other AI chatbots?

What differentiates Supportbot Pro from other AI chatbots is its advanced natural language processing capabilities, its ability to be trained on a company's specific data, its customization options according to website branding, and its focus on data security and privacy.

### How does Supportbot Pro participate in lead generation?

Supportbot Pro participates in lead generation by leveraging the company's data to answer customer questions. Through its interactions with the customers, it generates queries and engages with potential leads.

### Is there a limit on the number of messages Supportbot Pro can handle?

Yes, there is a limit on the number of messages Supportbot Pro can handle. The limit depends on the chosen subscription plan, ranging from 4,000 messages per month for the Starter plan to a customizable number for the Enterprise plan.

### What file formats can Supportbot Pro train on?

Supportbot Pro trains on web pages and file uploads, including PDF documents. Each subscription plan specifies a limit for webpages and file uploads that can be used for training.

---

### **Can Supportbot Pro be installed on multiple websites?**

The information on multiple installations of Supportbot Pro on different websites is not explicitly mentioned on their website.

---

### **What are the customization options available with Supportbot Pro?**

The customization options with Supportbot Pro include matching the chatbot to the branding and style of your website. Also, the chatbot can be trained on specific datasets for improved accuracy and relevance to your business.

---

### **Does Supportbot Pro offer a free trial?**

Yes, Supportbot Pro offers a free trial. Both the Starter and Growth plans have a 14-day free trial.

---

### **Do I need specific technical skills to set up Supportbot Pro?**

Installing Supportbot Pro does not require specific technical skills. The installation process involves simply placing the provided HTML code in the head section of your website's HTML code.

---

### **What are the pricing plans for Supportbot Pro?**

Supportbot Pro has three pricing plans: Starter at \$19 per month, Growth at \$99 per month, and Enterprise at \$999 per month. These plans differ in the number of chatbots, messages per month, web pages for training, file uploads, and file upload size.

---

### **Where can I get support if I have issues or questions about Supportbot Pro?**

You can get support for any issues or questions about Supportbot Pro by emailing their support team. Details for reaching this support service are provided in their Frequently Asked Questions section on their website.
