#### ADDITIONAL LIMITATIONS

- ⚠ No manual scene addition
- ⚠ Limited script editing
- ⚠ Video editing not supported
- ⚠ No support for languages other than English

## Frequently Asked Questions

### What is Shorts Faceless?

Shorts Faceless is an AI-powered tool designed to automate the creation of short, engaging videos for social media channels. It's particularly useful for faceless AI channels, with capabilities like script generation, image generation, voiceover creation, adding transitions, subtitles and more, all ultimately designed to simplify the video production process.

---

### How does Shorts Faceless automate video production?

Shorts Faceless automates video production through its integrated AI functionalities. It starts by generating a script for the video, accompanied by AI-generated images for each script line, and a selection of high-quality AI voices for the voiceover. Furthermore, it adds transitions, animated subtitles, and image effects to provide an engaging viewer experience. However, the platform does not currently support the addition of scenes or drastic modifications to the scripts or scenes, all...

---

### Can I edit the AI-generated scripts on Shorts Faceless?

Although you cannot write a video script entirely from scratch, Shorts Faceless allows the editing of the AI-generated script. However, it does not permit the addition or removal of scenes due to the structure of its AI generation mechanism.

---

### How does the AI script generation on Shorts Faceless work?

The AI script generation process in Shorts Faceless involves the use of cutting-edge AI technologies such as GPT. It generates short video scripts based on a given topic. After the initial script is generated, users have the capability to edit it to suit their requirements better.
