- No dedicated mobile app
- Tutor availability not mentioned
- Ad-supported on Basic subscription
- Study plan feature not implemented
- Research assistant feature pending

ADDITIONAL LIMITATIONS

- ⚠ Limited daily chatbot interactions
- ⚠ File upload limit
- ⚠ Lacks offline functionality
- ⚠ No dedicated mobile app

Frequently Asked Questions

What is Shepherd?

Shepherd is a comprehensive AI-powered platform designed to support students in their studies. Its goal is to consolidate various aspects of study life into a single tool, providing greater convenience and efficiency.

How does Shepherd support note-taking?

Shepherd supports note-taking via a Notion-style editor, facilitating the organization of thoughts and ideas for its users.

What kinds of learning assessments can Shepherd generate?

Shepherd can generate learning assessments but specifics about the nature of these assessments are not given.

How does Shepherd help with study planning?

Shepherd helps with study planning through its various features, such as creating a schedule and reminders for study sessions. However, specifics about its planning tools are not provided.

Does Shepherd connect me with human tutors?

Yes, Shepherd connects students with human tutors. It even provides a marketplace for tutors.

Can I interact with an AI tutor on Shepherd?

Yes, in addition to human tutors, Shepherd provides an AI tutor for independent study.

What resources are available in Shepherd's library?

Shepherd's library contains various resources designed to facilitate learning. The specific types of resources are not specified in the website's content.

How does Shepherd handle flashcards creation?

Shepherd allows for the creation of flashcards both manually and with the help of AI-generated prompts. This facilitates learners in the consolidation of important facts and ideas.

What is the functionality of Shepherd's chatbot?

Shepherd's chatbot is designed for user interaction, assisting users with their queries and needs within the platform. The specifics of the chatbot's functionality aren't detailed on the website.

Are there any limitations on the daily usage of Shepherd's chatbot?

Yes, there is a daily limit on questions that can be asked to Shepherd's chatbot. Basic subscribers can ask up to 30 questions while Premium subscribers can pose 200 queries per day.

Does Shepherd provide any reminders for study sessions?

Yes, Shepherd does provide smart reminders for study sessions, helping students to keep on track with their learning schedule.

What are the differences between Shepherd's basic and premium subscriptions?

Shepherd's Basic subscription is ad-supported and includes features like AI learning, access to the tutor marketplace, manual flashcard creation, and file uploads up to a 10mb limit per file among others. The Premium subscription, on the other hand, includes all these features and more, including ad-free usage, increased file upload limit, and unlimited AI-generated flashcards.

What are the supplementary features in Shepherd's premium subscription?

Shepherd's Premium subscription boasts additional features like an ad-free studying environment, access to stored videos and session transcripts, unlimited AI-generated flashcards, a higher limit for file uploads, and a higher daily

question limit for the chatbot. It is also noted that upcoming features such as a study plan and a research assistant will part of the Premium subscription.

Are there any ads on Shepherd?

Yes, Shepherd does feature advertisements but only in the Basic subscription. The Premium subscription offers an ad-free environment for focused studying.

Does Shepherd have a file upload limit?

Yes, Shepherd does have a file upload limit. For Basic subscribers, the limit is 10mb per file, while Premium users can upload files up to 100mb per file.

How does Shepherd simplify the learning process?

Shepherd simplifies the learning process by consolidating various elements of study life, like note-taking, study planning tools, learning assessments, and tutor connection. Besides, it contains a library with various resources and enables the creation of AI-generated flashcards. All these tools and resources are organized onto a single platform, making studying more efficient and convenient.

Can I use spaced repetition techniques with Shepherd's flashcards?

Yes, Shepherd's flashcards, both manual and AI-generated, can be utilized with spaced repetition techniques. This enhances long-term memory recall as it incorporates increasing intervals of time between successive reviews of previously learnt material.

Does Shepherd have any feature preferences?

Yes, Shepherd caters to different budget preferences and feature needs with the option to choose between a Basic and Premium subscription.

Does Shepherd offer access to session transcripts?

Yes, Shepherd's premium subscription provides access to stored session transcripts.

Can Shepherd generate AI flashcards?

Yes, Shepherd has the capability of generating flashcards using AI. This feature is unlimited for Premium subscribers while Basic users have the limit of creating 500 AI-generated flashcards.
