What is Uncody?

Uncody is an AI-powered landing page builder offering an effortless website creation process. With a user-friendly interface, it enables users to build and publish landing pages quickly using pre-tested, pre-built UI components. Uncody also offers game-changing content and design assistance, generating professional-quality outputs that align with a user's brand. It incorporates a custom tracking code for essential website metrics and integration with Mailchimp for lead collection and audience...

How does Uncody work?

Uncody works by providing pre-built UI components that users can utilize to quickly build and publish landing pages. It incorporates an AI-powered feature that generates professional-quality designs and copy to assist in the website creation process. It also includes a one-click publishing functionality, customizable SEO optimization, and tracking features for essential website metrics.

Who can use Uncody?

Uncody is intended for a broad range of users, including businesses and individuals with little to no design expertise or copywriting skills. Its intuitive interface and AI-powered features allow these users to generate professional-quality website designs, successful landing pages, and lead capture.

What are some key features of Uncody?

Key features of Uncody include its selection of pre-built UI components, AI-powered content and design generation, one-click publishing, large prebuilt icon library, SEO optimization, and custom tracking code feature for key website metrics. It also integrates with Mailchimp and provides custom form integration, allowing users to easily collect leads and stay engaged with their audience.

What does Uncody's AI-powered feature do?

The AI feature of Uncody generates professional-quality designs and copy. It produces outputs that align perfectly with a user's brand, aiding in website creation and reducing the effort typically required in design and copywriting.

What is the pricing for Uncody subscriptions?

Uncody offers a free subscription plan, as well as paid plans. The Pro plan costs \$9 per month and includes priority support, faster page loads, and custom domain functionality among other features. The Pro+ plan, costing \$39 monthly, provides support for creating up to 14 landing pages and priority gold support, among other features of the Starter plan.

Does Uncody offer a free plan?

Yes, Uncody offers a free plan, called the Starter plan. This plan provides basic features, such as a free SSL certificate and CDN.

How does the one-click publish functionality work in Uncody?

Uncody's one-click publish functionality allows users to make their page live instantly. It eliminates the need for manual hosting, thereby simplifying the website publication process.

What are the benefits of the pre-built UI components in Uncody?

The pre-built UI components in Uncody allow users to design their websites quickly. They are tested for conversion, thus ensuring effective design of landing pages that attract and convert visitors. The wide range of these components also provides versatility in design, catering to various needs.

Can I track my website metrics using Uncody?

Yes, with Uncody's custom tracking code feature, users can track essential website metrics. This feature helps in understanding website performance and user behavior, facilitating effective decision making for website

improvements.

Are sites created with Uncody SEO-optimized?

Yes, sites built with Uncody are SEO-optimized. Uncody provides customization options for SEO to help improve the visibility of the websites in search engine results.

Does Uncody facilitate collecting leads and audience engagement?

Yes, Uncody facilitates collecting leads and maintaining audience engagement. It integrates seamlessly with Mailchimp, and also provides custom form integration. This feature makes it easy for users to connect their landing pages to the tools and services they daily use.

What are some of the platforms integrated in Uncody?

Uncody is integrated with MailChimp for lead collection and audience engagement. It also provides custom form integration, and is continuously adding new integrations to enhance its functionality and user experience.

How does Uncody assist in building professional-quality website designs?

Uncody assists in building professional-quality website designs by offering a wide variety of pre-built, conversion tested UI components. Furthermore, its AI-powered feature generates stunning designs that align perfectly with a user's brand without the need for design skills.

Can I generate professional-quality copy using Uncody?

Yes, Uncody's AI-powered feature can generate professional-quality copy. The AI functionality creates copy that perfectly aligns with your brand, eliminating the need for copywriting skills.

Is there support available for users of Uncody?

Yes, support is available for users of Uncody. The level of support given depends on the plan chosen. The Pro plan provides standard support while the Pro+ plan offers Priority Gold support.

Are there any design expertise or copywriting skills required to use Uncody?

No, there are no design expertise or copywriting skills required to use Uncody. Its AI-powered feature generates professional-quality designs and copy that align perfectly with a user's brand. Its pre-built UI components also facilitate easy building and designing of websites.

Can I customize the design of my website using Uncody?

Yes, Uncody enables users to customize the design of their website. Users can choose from a wide range of pre-built UI components and a large prebuilt icon library for designing their website. The AI-powered feature also creates designs that perfectly align with the user's brand.

Does Uncody have any limitations on the number of landing pages?

The number of landing pages you can create using Uncody depends on your subscription plan. The Pro+ plan, for example, supports the creation of up to 14 landing pages.

How can I get started with Uncody?

To get started with Uncody, simply visit their website and click on the 'Get Started for Free' or 'Try Demo' options for free usage. For more features, you can select either the Pro or Pro+ subscription and opt for 'Get Started' on the respective plan. After creating an account, you can begin using Uncody's features to build and publish professional landing pages.
