ADDITIONAL LIMITATIONS

- △ Limited customization options
- △ Two-hour processing time
- △ Need to upload personal photos
- △ Limited to headshots only

Frequently Asked Questions

What is the AI Headshot Generator by Dreamwave?

The AI Headshot Generator by Dreamwave is a next-generation AI tool developed by experts from MIT and Google Brain. This tool generates natural-looking professional avatars or headshots that closely resemble images from professional photoshoots, offering high-quality results without the traditional 'AI look'.

How does the AI Headshot Generator work?

The AI Headshot Generator works by having users upload their own photos. Once uploaded, the AI then generates 60 different headshots based on the uploaded photo. The AI is highly advanced and capable of generating images with different scenes, hairstyles, outfits and more.

What is the process to generate headshots using the AI Headshot Generator?

To generate headshots using the AI Headshot Generator, users need to first upload their own photos. After uploading, the tool generates 60 different AI-based headshots to choose from. The process is designed to be efficient and convenient, providing users with a variety of professional-quality images.

How long does it take to generate headshots with the AI Headshot Generator?

Generating headshots with the AI Headshot Generator takes just two hours, providing a quick and efficient solution to users in need of professional headshots.

Can I upload my own photos to the AI Headshot Generator?

Yes, users can upload their own photos to the AI Headshot Generator. The AI uses these uploaded photos as reference to generate the AI headshots.

How many AI-generated headshots do I get per upload?

For every photo upload, the AI Headshot Generator produces a set of 60 AI-generated headshots to choose from.

What variety of images does the AI Headshot Generator offer?

The variety of images offered by the AI Headshot Generator is extensive. It offers unlimited scenes, hairstyles, outfits, and more, ensuring a diverse collection of professional headshots for users to choose from.

Does the AI Headshot Generator create images with a human-like appearance?

Yes, the AI Headshot Generator creates images with a human-like appearance. The AI is designed to create realistic headshots that are praised for their likeness to images produced in professional photoshoots.

Can I obtain professional headshots for use on platforms like LinkedIn with the AI Headshot Generator?

Yes, the AI Headshot Generator can be used to obtain professional headshots that are suitable for use on platforms such as LinkedIn. The high-quality, realistic appearance of the AI-generated images makes them fitting for professional use.

Is the AI Headshot Generator cost-effective?

Yes, the AI Headshot Generator is cost-effective. It saves users from the hefty costs associated with professional photoshoots, such as travel, styling, makeup, and the photoshoot itself. The tool offers the convenience of generating headshots in just two hours.

Does the AI Headshot Generator offer various scenes, outfits, hairstyles?

Yes, the AI Headshot Generator offers a wide variety of scenes, outfits, and hairstyles. It generates different looks automatically, saving users the time and effort of arranging varied settings and styles.

Do these AI headshots resemble professional photoshoots?

Yes, the AI-generated headshots by the AI Headshot Generator closely resemble images from professional photoshoots. The headshots have a human-like appearance and avoid the typical 'AI look', making them

indistinguishable from real photos to the untrained eye.

Does Dreamwave offer AI headshots for teams?

Yes, Dreamwave does offer AI headshots for teams.

Is there a free version of the AI Headshot Generator?

No, there is no free version of the AI Headshot Generator. The process of training a personal, custom AI model requires significant computer power, so Dreamwave only offers a paid product.

What is Dreamwave's policy with user data?

Dreamwave's policy with user data is strictly privacy-focused. They do not sell photos or data, and users always maintain control over how they share their photos. Users can delete their photos or account at any time. While the photos are used to create a personal, custom AI model, no one else has access to this custom model.

What do users say about the quality of Dreamwave's AI Headshots?

Users of Dreamwave's AI Headshots have given highly positive reviews, appreciating the realistic appearance, professional quality and variety of generated images. Customers are generally satisfied, with over 1 million headshots produced and appreciated.

Who are the people behind the development of the AI Headshot Generator?

The AI Headshot Generator was developed by a small team of self-funded machine learning researchers from the Bay Area, California, who have previously conducted AI research at prestigious institutions such as MIT and Google Brain.

What are the hardware requirements to use the AI Headshot Generator?

There are no specific hardware requirements stated to use the AI Headshot Generator. As it is an online tool, users would need a device with an internet connection to access and use the tool.

Can these AI-generated images be used for commercial purposes?

Yes, the AI-generated images can be used for both personal and commercial purposes. Once the images are generated, users have full control over how they want to use them.

What is Dreamwave's refund policy for the AI Headshot Generator?

Dreamwave's refund policy for the AI Headshot Generator states that customers can get a full refund if they email Dreamwave within 14 days of purchase, provided that their AI model has not been trained yet. After the model is trained, Dreamwave is unable to offer refunds due to the costs incurred during the model training process.
