- No multi-language support
- No performance analytics
- No data import/export
- No collaboration features

#### ADDITIONAL LIMITATIONS

- ⚠ Limited industry templates
- ⚠ No offline functionality
- ⚠ Potentially mistake-prone OCR
- ⚠ Limited aesthetic customization

## Frequently Asked Questions

### What is Pic Copilot?

Pic Copilot is an AI-powered tool designed to enable users to quickly and effortlessly generate high-quality marketing advertisements. Its services extend to creating product ads, translating image text, producing scene backgrounds, removing image backgrounds, and even using AI-operated virtual models to reduce photography costs.

### How does Pic Copilot work?

Pic Copilot operates by leveraging artificial intelligence and Optical Character Recognition technologies. On command, these technologies are used to recognize text and images, process them, and use this information to create custom advertisements. Users are able to select from a library of multi-industry AI templates and Pic Copilot processes these selections to generate professional-grade, unique marketing material.

### Can Pic Copilot generate scene backgrounds for products?

Yes, Pic Copilot has a specific feature designed to generate scene backgrounds for products instantly. This is done using AI technology to offer commercial-grade quality and varied style selections suitable for diverse product categories.

### Does Pic Copilot offer background removal from images?

Yes, Pic Copilot offers a feature for accurate, AI-assisted removal of backgrounds from images. This is achieved with the help of vast product data which accurately detects edges to ensure clear, mistake-free results after a one-click batch background removal.

### Can Pic Copilot translate text in images?

Yes, Pic Copilot is capable of translating text in images. This is accomplished through OCR and AI-powered Image Restoration, making it easier to manage and edit text in images.

### Can I use AI fashion models with Pic Copilot?

Yes, you can use AI fashion models with Pic Copilot. It provides a feature to upgrade to AI Fashion Models, thus enabling users to localize their product models while reducing photography costs.

### What industries does Pic Copilot cover?

Pic Copilot covers an array of industries such as beauty and personal care, digital electronics, and furniture among others.

### Is Pic Copilot user-friendly?

Yes, Pic Copilot is designed to be user-friendly. It has an interface designed to streamline and expedite the ad creation process, allowing for easy use and efficient operation.

### How can Pic Copilot improve my ecommerce marketing?

Pic Copilot can improve your ecommerce marketing by offering an easy and efficient way to create product ads and enhance product display. Paired with diverse style options, commercial-grade quality, and a rich library of AI templates, it empowers businesses to craft ads that can boost customer engagement and click-through rates.

### Has Pic Copilot been recognized as beneficial?

Yes, Pic Copilot has been recognized as beneficial to various ecommerce companies and individual entrepreneurs. It has shown to positively influence customer engagement and click-through rates.

### What's the benefit of the one-click ad generation feature?

The one-click ad generation feature offered by Pic Copilot allows users to create professional-looking ads quickly and effortlessly. This not only saves time but also enables a higher ad production rate, which has the potential to

significantly increase the number of customer impressions.
