| What It Does

Perplexity AI is an AI search engine that combines the power of large language models with real-time web search. Unlike chatbots that rely on training data, Perplexity searches the internet for each query and provides cited, up-to-date answers. It's become a popular alternative to Google for research questions, offering source links for fact verification.

CONTENT QUALITY

90/100

USEFULNESS SCORE

92/100

Pros

➕ What Works Well

+ Real-time web search with citations
+ No hallucinations — sources provided
+ Free to use
+ Academic search mode
+ Summarizes complex topics clearly

Cons

➖ Limitations to Consider

– Pro required for GPT-4/Claude models
– Less conversational than ChatGPT
