- Tokens needed for features
- No offline functionality
- Requires account creation
- Limited video processing hours
- Limited search and voice activations
- Limited GPT-3.5 messages
- No refunds for subscriptions

ADDITIONAL LIMITATIONS

- ⚠ Limited to Chrome Browser
- ⚠ Comprehension level adjustment required
- ⚠ Dependent on internet connection
- ⚠ Tokens needed for features

Frequently Asked Questions

What is Chrome Copilot?

Chrome Copilot is an AI-enabled tool designed to act as a personal tutor and search companion for online exploration. It provides real-time, personalized assistance and clarifies web content through a chat interface. It caters to individual learning levels and simplifies internet complexities into an easily navigable educational resource. Among its features are the YouTube Vision, which aids in efficient video watching and a 'Find In Video' element that locates specified moments in the videos....

How do I customize my comprehension level on Copilot?

Users can customize their comprehension level on Copilot by selecting their desired level in the chat interface. This adjustment allows for a customised learning experience, transforming the internet into an easy-to-navigate educational resource.

What is the YouTube Vision feature provided by Copilot?

The YouTube Vision feature provided by Copilot aids users in efficient video watching. This feature includes an AI-driven summarizer that provides quick overviews of video content. It also has a 'Find in Video' element that allows users to efficiently locate specified moments in the videos, saving time and focusing on important content.

How does Copilot simplify web complexities?

Copilot simplifies web complexities by allowing users to adjust their comprehension levels on its chat interface. This provides users with a personalized, real-time aid, converting the vast and complex information on the internet into an easy-to-use educational resource.

How secure is my data with Copilot?

Data is kept secure with Copilot by maintaining only feedback, questions, and profile information. All personal data including profile and payment information are stored on an encrypted virtual private cloud (eVPC), ensuring user's privy information is protected and only accessible by the user.

How does the 'Find In Video' feature work in Copilot's YouTube Vision?

The 'Find In Video' feature in Copilot's YouTube Vision operates by locating specific moments in the video as requested by the users. This enables users to effortlessly find and focus on important content within the video without having to search through the entire video.

What is the Personal Tutor component in Copilot?

The Personal Tutor component in Copilot is a feature that allows users to have open discussions on any topic. This enables users to clarify their doubts and broaden their understanding of the subject matter, providing a fully integrated learning experience.

How does the Enhanced Search feature in Copilot work?

The Enhanced Search feature in Copilot works as a constant companion for online exploration, providing valuable insights and tailored suggestions. This deepens the user's understanding of any topic they search for, and they can discuss these findings directly with their Personal Tutor.

Can I adjust the Copilot's learning experience to my needs?

Yes, users can adjust Copilot's learning experience to match their needs by changing their comprehension level within the chat interface. This makes learning customized and transforms the vast, complex internet into an easily navigable educational resource.

How does Copilot aid in efficient video watching?

Copilot aids in efficient video watching through its YouTube Vision feature. It includes an AI powered summarizer for quick, digestible video overviews and a 'Find in Video' feature to help users locate specific moments in the video,

thus saving time and focusing on what matters.

What is the ethos of Copilot?
Copilot's ethos is centered around building a trusting AI environment and democratizing AI, with the goal of making it accessible and beneficial in daily life. They believe in maintaining transparency over how AI is used and what data is collected to ensure user privacy rights are protected.

Why is Copilot called a democratized AI environment?
Copilot is referred to as a democratized AI environment because it was designed with the purpose of making AI accessible for everyone. Their community-led platform supports the democratisation of AI, intending to align the public with AI in a safe and productive manner.

How can Copilot aid me in daily life?
Copilot can aid in daily life by providing personalized, real-time assistance for online exploration. Its features are designed to save time, contribute to productivity, and enhance learning. For instance, the AI's Enhanced Search delivers insights on searched topics, and the YouTube Vision feature helps in faster content understanding.

Does Copilot offer real-time assistance?
Yes, Copilot offers real-time assistance. Through its chat interface, users can receive immediate help and clarification on web content, thereby simplifying the learning process.

What kind of insights does Copilot offer on searched topics?
Copilot offers valuable insights and tailored suggestions on any searched topic through its Enhanced Search feature. These insights can deepen the user's understanding of the topic, providing a richer, more comprehensive learning experience.

What is the significance of the Copilot's chat interface?
Copilot's chat interface is significant as it offers a single platform for users to get real-time, personalized help and instant web content clarification. The interface is designed to simplify the complexities of the web and make it an easy-to-navigate resource.

Can I have open discussions with the Copilot's Personal Tutor?
Yes, with the Personal Tutor feature of Copilot, users can have open discussions about any topic. This component of Copilot provides an opportunity for interactive learning, where doubts and concepts can be discussed for a better understanding

Can I get personalized assistance from Copilot?
Yes, Copilot offers personalized assistance. By employing an AI chat interface, Copilot furnishes users with real-time help that is customized to each individual's comprehension level, thereby transforming the web into an easy-to-explore educational resource.

How can Copilot help with my online exploration?
Copilot can help with online exploration by providing real-time, personalized assistance and clarifying web content right when needed. The Enhanced Search feature in Copilot deepens the user's understanding by providing valuable insights on every topic that is searched. Additionally, the YouTube Vision feature optimizes video watching by providing summarised content and precise video navigation options.

What sort of information does Copilot keep for data security?
For data security, Copilot only keeps feedback submitted by users, questions asked to the personal tutor, and the user's profile information. The personally identifiable information like profile data and payment details are securely stored on an encrypted virtual private cloud (eVPC) and are not shared with any third parties.
