> ⚠ No mobile application

▌ Frequently Asked Questions

What is ChatGPT Builder?

ChatGPT Builder is a platform that allows businesses to build data-driven chatbots for their websites. These chatbots are customizable, require no complex coding, and use OpenAI's ChatGPT as the underlying technology for creating intelligent and dynamic interactions.

How does ChatGPT Builder work?

ChatGPT Builder provides an intuitive interface that enables developers or businesses to build chatbots by customizing them to meet their specific needs and integrating them with various channels. The chatbots' intelligence comes from OpenAI's ChatGPT which uses AI technology to engage, assist, and delight users. The platform also includes analytics, multi-channel messaging support, community management automation, instant customer support, and sales and marketing automation.

What kind of chatbots can I create with ChatGPT Builder?

With ChatGPT Builder, you can create intelligent and dynamic chatbots that are extensively customized and integrated seamlessly with various channels such as Facebook, Instagram, Telegram, Email, Text Messaging, and business phone calls. These chatbots are capable of engaging, assisting, and delighting users, and can be personalized using business data.

What platforms can ChatGPT Builder chatbots be integrated with?

ChatGPT Builder chatbots can be integrated with a variety of platforms including Facebook, Instagram, Telegram, Email, Text Messaging, and even business phone calls.

What is the cost of using ChatGPT Builder?

ChatGPT Builder offers a fixed monthly rate of $49 for early adopters. This rate includes unlimited contacts and unlimited messages. The pricing plans are transparent and there is a 100% guarantee satisfaction policy. It also offers a free 7-day trial.

How does the 7-day free trial work on ChatGPT Builder?

The 7-day free trial on ChatGPT Builder allows businesses to explore all the features and integrations of the platform for free, without the need for a credit card. After the trial period ends, the user can decide to continue using the services by subscribing to a paid plan.

Can I customize the chatbots I build with ChatGPT Builder?

Yes, ChatGPT Builder allows extensive customization of the chatbots. Chatbots can be personalized according to the specific needs of the business using the available business data.

What is the nature of the analytics provided by ChatGPT Builder?

ChatGPT Builder provides powerful built-in analytics features. However, the specific nature of these analytics is not fully outlined on their website.

What is prompt chaining flow builder in ChatGPT Builder?

Prompt chaining flow builder in ChatGPT Builder is a feature that allows businesses to use Artificial Intelligence technology to unlock a world of possibilities. More specifics about this feature are not provided on their website.

Does ChatGPT Builder support multi-channel messaging?

Yes, ChatGPT Builder supports multi-channel messaging. This allows businesses to connect with their customers across various platforms like Facebook, Instagram, Telegram, Email, Text Messaging, and business phone calls.

What kind of business data can I use to personalize a chatbot with ChatGPT Builder?

Details about the kind of business data that can be used to personalize a chatbot with ChatGPT Builder are not specifically mentioned on their website.

What resources does ChatGPT Builder offer to assist in building a chatbot?

ChatGPT Builder provides several resources and templates that businesses can use to start building their chatbots.

What is the role of Artificial Intelligence in ChatGPT Builder?

Artificial Intelligence plays a crucial role in ChatGPT Builder. It powers the chatbots making them intelligent and dynamic. It also plays a part in the prompt chaining flow builder, enabling the chatbots to unlock a world of possibilities.

How quick is the process of building a chatbot on ChatGPT Builder?

ChatGPT Builder allows businesses to build intelligent and dynamic chatbots in less than 60 seconds. Their chatbots are ready to be deployed within this timeframe.

What is the level of coding complexity involved with using ChatGPT Builder?

Using ChatGPT Builder does not involve any complex coding. The platform offers an intuitive interface that can be navigated by both seasoned developers and those new to conversational AI.

What does the 100% satisfaction guarantee policy at ChatGPT Builder entail?

The 100% satisfaction guarantee policy at ChatGPT Builder means that if a user is not fully satisfied with the service, they can request a refund. Additional details about this policy are not specifically mentioned on their website.

How does ChatGPT Builder facilitate sales and marketing automation?

ChatGPT Builder facilitates sales and marketing automation through its data-driven chatbots. These chatbots bolster customer engagement and ease business operations. However, specific mechanisms of how this is achieved are not fully outlined on their website.

What is the early adopter program by ChatGPT Builder?

The early adopter program by ChatGPT Builder offers exclusive benefits such as a fixed monthly rate of $49, unlimited contacts and unlimited messages. Early adopters can join till July 31, 2023. Post this date, the program offerings may be subject to change.

How does the chatbot created with ChatGPT Builder assist with community management automation?

Details around how the chatbot created with ChatGPT Builder assists with community management automation are not specifically mentioned on their website.

What is the integration process of ChatGPT Builder with Facebook, Instagram, Email, etc.?

The integration process of ChatGPT Builder with platforms like Facebook, Instagram, Email, etc., is not specifically outlined on their website. However, the chatbots built on this platform are said to integrate seamlessly with these channels.
