Frequently Asked Questions

What exactly is Flowlie?

Flowlie is an all-encompassing hub for fundraising purposes, designed to aid founders in various facets of the fundraising process. It includes tools for building cap tables, designing fundraising rounds, facilitating investor outreach, sharing pitch decks and one-pagers, and monitoring investor engagement. Flowlie also features a unique AI-powered Deck Analyzer for testing pitch decks, alongside an investor database that aligns with each company's stage and style. Flowlie is not a fundraising...

How can Flowlie help me with raising funds?

Flowlie assists in raising funds by providing tools and features designed for various aspects of the fundraising process. It enables founders to build an optimal cap table, plan fundraising rounds, reach out to potential investors directly, share pitch decks and one-pagers, and track investor engagement. Flowlie offers a Round Builder for structuring the fundraising process, a Dilution Calculator for projecting share values and percentages to be sold, and a database of investors curated to fit...

What is Flowlie's Round Builder?

The Round Builder in Flowlie is a tool designed to guide founders through the structuring and planning of their fundraising process. It helps design a fundraise that is guided and well-structured. Leveraging Round Builder, founders can create and plan their fundraising in a manner that aligns with their specific needs and goals.

Can Flowlie suggest industry terminology to use in my investor outreach?

Yes, Flowlie provides a feature called 'Suggested Terms' which offers industry terminology. It is designed to help founders impress potential investors with their command of industry-relevant language and terminologies.

How does Flowlie's AI-powered Deck Analyzer work?

The AI-powered Deck Analyzer in Flowlie is a unique tool designed to test pitch decks before they're distributed to potential investors. While specific functioning details were not given on the website, it likely employs artificial intelligence algorithms to analyze the content of pitch decks, providing feedback and recommendations for improvement.

How can I share my pitch deck with investors using Flowlie?

With Flowlie, sharing your pitch deck with investors is simple and swift. It offers tools for creating and sharing one-pagers and pitch decks, allowing these to be shared via desktop or mobile. Also, through a feature called 'One Link for Everything,' you can ensure that all your updated information gets viewed by your potential investors with ease.

Can I monitor investor engagement with my shared information through Flowlie?

Yes, Flowlie has tracking capabilities to monitor investor engagement with shared materials like pitch decks or one-pagers. You get immediate feedback on the engagement, with insights on who viewed your materials, for how long, and even the type of device they used, providing a better understanding of investor engagement.

What is the investor database in Flowlie?

The investor database in Flowlie is personalized according to each company's stage and style. It helps identify suitable investors by providing a curated list. Additionally, investor profiles are detailed, highlighting their investment interests and areas of expertise, facilitating a more targeted and effective investor outreach.";

How does the Dilution Calculator in Flowlie work?

The Dilution Calculator in Flowlie is a tool intended to project the value of shares and the percentage to be sold in a fundraising round. It assists in financial forecasting by calculating how the share value may dilute as more investors come on board.

Can I create a one-pager with Flowlie?

Yes, Flowlie offers a tool called the 'One-Pager Builder', which allows you to showcase information in a compact and easy-to-digest format to facilitate investor decisions. This builder provides a standardized template designed to highlight the key features and elements of your company, streamlining the presentation of your business to potential investors.

What information does Flowlie provide about each investor?

Flowlie provides comprehensive profiles for each investor within its database. The profiles detail each investor's areas of interest and expertise. This information can assist you in understanding the investment preferences, theses, and backgrounds of potential investors, allowing for more informed and targeted outreach.

What are the differences between Flowlie and traditional fundraising methods?

Compared to traditional fundraising methods, Flowlie provides a suite of automated tools and analytic capabilities that streamline several aspects of the fundraising process. Instead of sending pitch decks via email (akin to sending a PDF into a black box), Flowlie allows founders to share updated information with investors in real-time and track engagement. This engagement tracking allows a better understanding of investor interest and facilitates immediate iteration based on feedback, which...

Is Flowlie suitable for any type of company or only specific ones?

Flowlie is designed to be suitable for a wide range of companies. The platform provides an investor database that is personalized based on each company's stage and style, indicating its flexibility and adaptability to a wide variety of business types and stages.

How secure is my data with Flowlie's platform?

Security is a high priority with Flowlie. The information inputted into the platform is kept private and fully under the control of the user. Flowlie guarantees they will never share information with investors without the explicit consent of the user, reaffirming their commitment to data privacy and security.

What kind of immediate feedback does Flowlie provide on investor engagement?

Flowlie provides immediate feedback on investor engagement with shared materials, including pitch decks or one-pagers. The feedback and analytics provide insights on viewership, session duration, as well as the device type and location, enabling better understanding and visibility over interactions by potential investors.

Can I track who viewed my materials through Flowlie and for how long?

With Flowlie, you have the ability to track who viewed your shared materials, along with the duration of their engagement. This allows you a closer look at the interest in your pitch, helping you understand who your materials resonate with, so as to effectively prioritize and tailor your consequent investor outreach efforts.

Does Flowlie provide any tools to help with investor outreach?

Yes, Flowlie comes with tools aimed at bolstering investor outreach efforts. Key among these is the Investor Database which presents a curated list of investors personalized to your business's stage and style. Additionally, with Flowlie's Investor Intro Paths, you get to discover the best warm introductions to target investors.

How does Flowlie's fundraising automation work?

Fundraising automation in Flowlie involves using its various tools to automate and streamline several aspects of the fundraising process — from building a dream cap table, designing fundraising rounds, and performing investor outreach, to preparing one-pagers, sharing decks, and tracking investor engagement. Despite its automation features, Flowlie emphasizes that users remain responsible for engaging potential investors.";
