Frequently Asked Questions

What is Slayed.ai?

Slayed.ai is an AI-powered financial management tool designed to simplify and improve business financial processes. It caters to freelancers, contractors, and small businesses, offering a suite of features for invoicing, payment collection, estimate generation, expense tracking, and report creation.

Who is the target audience for Slayed.ai?

Slayed.ai targets freelancers, independent contractors, and small businesses. It is particularly beneficial for these groups as it streamlines financial management processes, enabling them to focus on their core operations.

What are the key features of Slayed.ai?

Key features of Slayed.ai include intuitive tools for creating and tracking invoices, a comprehensive suite for processing payments, tools for creating professional estimates quickly, expense tracking functionality, and comprehensive reporting tools for tracking income, expenses, and profitability.

Does Slayed.ai support mobile access?

Yes, Slayed.ai supports mobile access, allowing users to manage their operations from anywhere. This flexibility is key for busy freelancers, contractors, and small business owners who require on-the-go capability.

What payment methods does Slayed.ai support?

Slayed.ai supports a variety of payment methods. These include traditional methods such as credit cards and bank transfers, as well as online wallets. This ensures that businesses can accept payments in a manner convenient for their clients.

How does Slayed.ai streamline the invoicing process?

Slayed.ai streamlines the invoicing process by providing intuitive tools to create professional-grade invoices. Invoices can be directly sent to clients via email or shareable links. Slayed.ai also tracks invoice statuses, providing real-time updates. Furthermore, it automatically schedules, dispatches, and collects payments, reducing manual intervention.

Does Slayed.ai offer estimate creating tools?

Yes, Slayed.ai offers estimate creating tools. These allow businesses to quickly and efficiently create professional estimates, convert them into invoices, and follow up with clients.

How can I track expenses and generate reports using Slayed.ai?

With Slayed.ai, businesses can conveniently capture and categorize expenses on the go. The tool enables the generation of insightful reports on these expenses, making it easier to gain insights into business spending.

What type of reports can I generate through Slayed.ai?

Through Slayed.ai, businesses can generate detailed financial reports which track income, expenses, and profitability. Additionally, it supports customizable reports, enabling businesses to analyze trends and identify areas for improvements.

Does Slayed.ai automate the payment collection process?

Yes, Slayed.ai automates the payment collection process. It accepts various payment methods and provides instant notifications for successful payments. Moreover, it simplifies transaction reconciliation, making it easier for businesses to streamline their payment processes.

Is Slayed.ai currently in beta phase?

Yes, Slayed.ai is currently in its beta phase. Despite this, the tool is showing great promise in enhancing business productivity by simplifying financial management.

How does the Slayed.ai tool foster efficiency in businesses?

Slayed.ai fosters efficiency in businesses by automating and streamlining various financial tasks. From scheduling, dispatching, invoicing, and payment collection, Slayed.ai operates these processes automatically, which minimizes manual tasks and leads to improved business efficiency.

Can I capture and categorize expenses in Slayed.ai?

Yes, Slayed.ai allows businesses to capture and categorize expenses. This functionality makes it easier to organize and review expenses, providing clearer insights into business spendings.

Can Slayed.ai identify potential areas of improvement for my business?

Yes, Slayed.ai provides comprehensive reporting tools that help businesses identify potential areas of improvement. By generating custom reports, you can analyze trends, track income, expenses, and profitability, and make data-driven decisions to improve your business.

How do businesses send invoices to clients using Slayed.ai?

Businesses can send invoices to clients using Slayed.ai by generating the invoices through the platform and then directly sending them to clients via email or shareable links.

Can Slayed.ai help facilitate scheduling and dispatching processes?

Slayed.ai can facilitate scheduling and dispatching processes by leveraging automation functionality. It enables businesses to streamline their operations, saving time and resources.

Does the Slayed.ai software provide instant payment notifications?

Yes, Slayed.ai provides instant notifications for successful payments, adding an additional level of convenience and assuring businesses that a payment has been made.

Can I join a waitlist for Slayed.ai?

Yes, you can join a waitlist for Slayed.ai. As mentioned on their website, you can submit your contact information to be notified when the tool is ready for use.

What types of industries can benefit the most from using Slayed.ai?

Freelancers, contractors, and small businesses are industries that can benefit the most from using Slayed.ai. These industries often have to manage multiple financial tasks on their own, and Slayed.ai simplifies these processes through automation and user-friendly tools.
