What It Does

Manus AI is one of the most advanced autonomous AI agents available, capable of completing long-horizon tasks that involve web browsing, coding, file management, form filling, and data analysis — all without human intervention. It was developed by the Chinese startup Monica and went viral for its demonstration of fully autonomous computer use. Currently available by invitation.

CONTENT QUALITY

88/100

USEFULNESS SCORE

89/100

Pros

➕ What Works Well

+ Fully autonomous task completion

+ Web browsing and research

+ Code writing and execution

+ File management

+ Handles complex multi-step workflows

Cons

➖ Limitations to Consider

− Invite-only access

− Can be slow on complex tasks

− Trust issues with autonomous actions
